

Why is it important to you?
(STASIS is the enforced hibernation of humanity)

January 2009? Stasis starts?

*It appears that the PRAVDA newsagency of Moscow has so far been the only mainstream media mentioning that planetary scientists had found out that inside Jupiter are taking place thermonuclear reactions (see the red spots which get more and increase) - which would most probably make Jupiter ignite into a sun which could most probably eliminate all life on our planet - especially when Jupiter is near to earth when it happens.
This event is - by the way - NO pole flip. (the articles from August 08)*

Michael of Nebadon (see Urantia Book), here called Christ Michael our Creator Son -

I am planning the stasis to begin just prior to the optimal time to initiate Jupiter. The planet is opposite the earth with the sun between in late January, and there is about a 2 week window on either side of that time. I will know the Right Time, and it is now so very close. We could start stasis technically on January 1, the day after the final date of decision of all souls incarnate upon the surface of this world. However, I will likely wait a short time longer in hope of having some broad brief coverage on television shortly before starting stasis. If not, we go ahead anyway. I will not delay Jupiter another year, for that planet is also "chomping at the bit" for it's own ascension. It is becoming difficult to maintain a status quo for it.

I could start the stasis afterwards also and we consider that, as a way to definitely get the ability to explain rapidly to the people of this world what is going on. As long as the sun intervenes this is possible, and it was considered and used as an encouragement to the dark to move forward in assistance. This was not successful and mostly because there are so many clones and robots who have no connection to anything except greed operating in power.

We made the decision late in 2007, to give a definitive final date for all souls to determine whence they would go by the end of this year, 2008. We chose to more or less stick to bible prophesy, of a strong 42 month period of rapid change, and in effect, this is in place now, with this past year being the first 12 months. The stasis period will not "count" in these 42 months. The counting returns after stasis, and there is the goal to get a huge amount of work done in the final 2 1/2 years of that 42 months. This is the period where the teamwork comes into operation on the surface of the planet. It is the time of great repair by man, of his organization to serve, guided by those 100,000 taken for training. We considered many more Larry, there are about 1 million on the planet who could train during stasis, but that is too many afterwards, too many bosses so to speak. If you do not find yourself aboard ship prior to the ending of stasis, you will be one of those who will pick up and run after you know who to contact as your "team" leader. These 100,000 will be sorted into teams under the regional directors, of whom many more will be chosen. Otherwise, being aware simply jump in and get busy!

I could wait one more year and support Jupiter, but earth is so very very polluted and utterly miserable and I wish to accommodate her. Her suffering has been long. She personally experiences all the war and attacks on her body, just as badly as you would with a severe cancer. And her cancer has lasted for about 200,000 years.

She has experienced a temporary healing of that cancer, only to have it come back some 5 times now, as the planet has experienced that many pole reversals in those years and many other temporary and sporadic regional cleansings. It is time also for her final healing, which you on her surface shall accomplish in healing her "mental" and emotional" bodies. We will heal the body physical for her.

There is no special preparation. Many sadly fall for purchasing courses promising ascension with completion of the material, but there is no course you can take to prepare. The preparation is yours alone and if you have chosen to be a Stay Behind, you have been prepared during sleep, whether you are part of the 100,000, or the rest of the supportive crew who will stay behind. Soul growth is based on your own individual efforts. There is NO magic. Live your best life, as Oprah often says on TV, but take into consideration, that the best life being advocated on TV at this time, is about living the best material life and one can't take the material items to heaven. Do exactly as always advised, and lay up your heavenly gifts that you yourself create in your willful service to our common Father, First Source (Paradise Father). Always work as much as you can muster, from the place of heart and compassion. Be in Peace dear one and serve well!

Namaste, I AM Christ Michael of Nebadon
